

CCM House Wash

Technical Data Sheet

Description:

The safety data sheet and technical data must be read prior to use

CCM House Wash Kills moss, mould, lichen, green slime, mildew, algae and fungi. Ideal for paths, driveways, brickwork, fences, camping gear, patios, pools, porches, roofs, shower curtains, walls, eaves, caravans, boats, hot tubs, masonry, awnings, garden furniture, guttering, landscape rocks, tombstones, tiles, tennis courts, fibrolite, plaster, downpipes, statues, boats, caravans, plastic glasshouses, moss on lawns, spa pools, trellising, corrugated iron, decramastic and coloursteel roofing.

The concentrate is supplied as a 25% solution of actives in water and this is recommended to be diluted 1 part to 10 parts water to give a ready to use product of 4% active. Concentration can be increased up to 3 to 1 for hard to move moss and algae. This product can be diluted as much as **20-1** for light moss and mould removal.

CCM House Wash is NOT a bleach.

CCM House Wash is biodegradable.

CCM House Wash is safe on plants, just rinse before after spraying. Don't spray near fish

Allow 3 - 4 hours of dry weather after spraying. Spraying in mornings or late afternoons gets the best results.

REMEMBER waterblasting tends to bruise the surface you are trying to clean making it in the end more receptive to moss & mould spores returning and growing.

Black mould (tiger mould) can take many weeks to finally disappear so patience is the key.
